- MongoDB
- TypeScript
- JavaScript
- Node JS
- ReactJS
- PHP
- Angular
- Laravel
- Python
- Java
- UI/UX
- Version Control

PROFILE

Enthusiastic and driven BSc Information Technology undergraduate with a strong passion for full-stack development. Skilled in both front-end and back-end technologies, with a continuous drive to learn and build dynamic, user-friendly, and efficient web applications. Known for adaptability, problem-solving abilities, and a commitment to delivering high-quality solutions. Eager to contribute and grow as a full-stack developer in a challenging, innovative environment.

EDUCATION

Bachelor of Science in Information Technology (Undergraduate - Currently Enrolled)	2022 - PRESENT
G.C.E. Advanced Level - Technology Stream	2018- 2020
ICT (Information and Communication Technology)	S
SFT (Science For Technology)	B
ET (Engineering Technology)	S

PROJECTS

- Vehicle Management System**
 - Used React for the frontend
 - Used Laravel REST APIs for the backend
 - Handled vehicle data: registration, maintenance, inventory
 - Added 3D vehicle gallery with Three.js
- Shopping Management System**
 - Built with HTML, Bootstrap, JavaScript, and Laravel
 - Included product listings and inventory management
 - Enabled real-time customer order tracking
 - Designed a responsive, user-friendly shopping interface

SOFT SKILLS

- Project Management
- Problem Solving
- Time Management
- Logical Thinking
- Critical Thinking
- Leadership

ACHIVEMENTS

- Building Trending and Modern Web Applications
- Creating 3D Interactive and Animative Websites
- Optimizing Web Performance and User Experience
- Experimenting with Emerging Web Technologies
- Exploring AI-Powered Web Solutions

LANGUAGES

- Sinhala (Fluent)
- English (Fluent)
- Korean (Basics)
- Tamil (Intermediate)

Pharmacy Management System

- Developed with HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL
- Included modules: inventory, billing, orders, and user roles
- Designed for mobile responsiveness
- Improved pharmacy workflow efficiency and accessibility

Hospital Management System

- Built with HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL
- Managed patient records and appointment scheduling
- Included secure billing and user authentication
- Optimized doctor-patient scheduling system

Tile Management System

- Developed with HTML, CSS, PHP, and MySQL
- Tracked tile inventory, sales, and customer orders
- Included product categories, order processing, and admin controls
- Focused on user-friendly, database-driven design

CERTIFICATIONS

Python Essentials - Cisco Networking Academy

- Enrolled in Python Essentials course by Cisco Networking Academy
- Learning core concepts: data types, control structures, functions, OOP
- Building strong foundational programming skills
- Preparing for future roles in software development and data science

Introduction to Data Science

- Completed Introduction to Data Science by Cisco Networking Academy
- Learned data analysis, visualization, and machine learning basics
- Gained insights into data-driven decision-making
- Ready to apply skills in real-world data science projects
